**A VIGOROUS, PROLIFIC, DEPEND-
ABLE WHITE GLADIOLUS**

BEACON = WHITE

(“K. Glory” x “White Lady”)—Sister to
“Beaconflame”

“Beacon-White” (Christy’s “White Wonder”) was selected by the veteran Hybridizer, Wilbur A. Christy of Warren, Ohio, as the BEST of 50,000 Seedlings:

“A strong, vigorous grower, with abundant broad green foliage; a straight, up-standing stalk and spike, entirely free from any tendency to crook; spike well spaced correctly, with large round petalage, unusually set with flowers medium to large, facing right and somewhat frilled and occasionally semi-double—of great substance, a fine shipper. White, with slight tracing of pink or carmine—practically white, and coming so if cut early and blossomed out in water. Very prolific of bulblets . . . yielding extra large bulbs . . . producing abundant plump seed.”

Mr. Chas. E. F. Gersdorff rates it XXXX. All who have seen it predict great future as THE Cutting White Gladiolus.
